

WHAT WOULD WAYNE DYER THINK OF US FACING NUCLEAR WAR WITH NORTH KOREA?

GREETINGS FROM THE MANAGER OF THE WAYNE DYER DISCUSSION GROUP

In the myriad of worlds with intelligent life that may exist, we must certainly be a strange anachronism- as our very smart and wise leaders have led us into a quagmire of weapons that can bring the Earth to the verge of planetary suicide.

As Robert Frost said in his succinct apocalyptic poem, Fire and Ice:

Some say the world will end in fire,
Some say in ice.
From what I've tasted of desire
I hold with those who favor fire.
But if it had to perish twice,
I think I know enough of hate
To say that for destruction ice
Is also great
And would suffice.

Did the emotion of hate for millions of unknown, innocent people men, women and children, experience inwardly as intrinsic enemies, worthy of death or the lethal and crippling consequences of radiation- bring us to this awful place, a place of planning and implementing fiery, nightmarish weapons of mass destruction?

What did Wayne Dyer think of this?
